- Like with the Y-Axis, lay the X-Drag-Chain flat on a table. Feed through the Z-Axis stepper motor wire.
- The end of the stepper motor wires with the black connectors should be at the male end of the X-Drag-Chain (opposite to Y-Axis).
- Attach the female end of the X-Drag-Chain to the Drag-Chain-Fixed-End on the V Slot-2040-750mm. It will take some force to click it into the Drag-Chain-Fixed-End.
- Bring the male end of the X-Drag-Chain up to the X-Axis-Moving-End-Assembly and attach it to the Drag-Chain-Moving-End. It will take some force to click it into the Drag-Chain-Moving-End.
